LBST 22xx	Ethical and Cultural Critique	3	Must be H section	
HONR 3700	University Honors Topics	3	May be repeated for credit	

UHP students must maintain good standing status throughout their academic career. This includes compliance with academic progression and GPA requirements, as well as compliance with participation expectations. See the UHP website (<http://uhp.uncc.edu>) for detailed requirements.

UHP students may join other honors programs. Students may graduate with dual honors by completing all departmental/college honors requirements, in addition to UHP requirements. In this case, the departmental capstone experience will exempt students from HONR 3790 and 3791. Whatever option you choose to meet senior honors requirements, you must submit an Application to Candidacy a semester in advance by the deadline posted on the Honors College website. Students in dual honors programs may count one 3000 level departmental honors course toward their 12 hours of honors electives.

Students studying abroad may request equivalency credits for honors coursework from the UHP Director.
