LBST 2102	Global Connections	3	Typically freshman and sophomore year	Must be honors section

- The UHP attribute has been added to the student's account so that they may register for honors classes.
- The only required UHP classes for new UHP students are HONR 1700 and UWRT 1103 (student is exempt from UWRT 1103 if they already have credit for the course equivalency).
- Students may elect to take one honors LBST course selected from the list above. The section must be an honors section to receive UHP credit. It is not required for students to take an honors LBST course their first semester. UHP students must take LBST 2215 (honors citizenship) during their second year in the program. Therefore, we do not recommend that the students take an LBST 22XX course their first semester as this requirement will be met later in the UHP curriculum.
- New students may not take HONR 3700 classes.
- HONR 1700 (Honors Colloquium) does not include elements of freshman seminar courses. Students are encouraged to take a freshman seminar course appropriate for their major/college in addition to HONR 1700.
- Please contact the University Honors Program at uncc-uhp@uncc.edu or 704-687-7197 if you have any questions about these requirements. Students may drop by our office in Levine Hall during SOAR if they need assistance with UHP registration.
